1. This Office action is in response to the amendment filed 11/24/03 and refers to the Office action mailed 5/20/03.

2. Claims 5, 11, 15-17 and 22 are objected to because of the following informalities: in claims 15-17, there are still numerous instances where "cyclo" is misspelled as well as "methylene" and "cyclopentadienyl" as noted in previous Office actions. In claims 5 and 22, insert --an-- before "alumoxane" and --a-- before "trialkylaluminum" since these are genuses, not species. Further in claim 22, "trialkylaluminum" is misspelled. Appropriate correction is required.

3. Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 3, R^{III} is defined as a monovalent entity, this contradicts claim 1 in which it is required to be divalent.

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

5. Claims 1-4, 6, 7, 10, 11, 13-16, 18, 19 and 21-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Vega as cited in and for the reasons of record given in paragraph 5 of the previous Office action.

6. Claims 1-8, 10, 11 and 13-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hidalgo Llinas as cited in and for the reasons of record given in paragraph 6 of the previous Office action.

7. Claims 6 and 14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Canich as cited in and for the reasons of record given in paragraph 7 of the previous Office action.

8. Applicant's arguments filed 11/24/03 have been fully considered but they are not persuasive. Applicant's arguments fail to comply with 37 CFR 1.111(b) because they amount to a general allegation that the claims define a patentable invention without specifically pointing out how the language of the claims patentably distinguishes them from the references. Applicant's arguments do not comply with 37 CFR 1.111(c) because they do not clearly point out the patentable novelty which he or she thinks the claims present in view of the state of the art disclosed by the references cited or the objections made. Further, they do not show how the amendments avoid such references or objections.

9. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
